

SECURITRON SYSTEM # 20

Application

Single door with digital entry, timer and motion detector.

Operation

Outside Operation: From outside entry of a valid code will de-energize the maglock. The DT-7 will lock and unlock the maglock at specific times.

Inside Operation: From the inside XMS will allow free egress at all times. In case of failure the EEB2 will de-energize the maglock for 30 seconds.
