Class II Permissive change as described in this filing. Limited single modular approval. Output power listed is conducted. This grant is valid only when the module is installed in the end products of the grantee under their control as explained in this filing. Marketing this module to 3rd parties and the general public is prohibited. Grantee must ensure that the end user has no instructions to remove or install this module. The antenna(s) used for this module must be installed to provide a separation distance of at least 20cm from all persons. Collocation with other transmitters for simultaneous transmission may be done in accordance with FCC multi-transmitter product procedures. Installers must be provided with antenna installation instructions and end-users must be provided with transmitter operating conditions for satisfying RF exposure compliance requirements. Only the antenna(s) listed in this filing can be used with this module. Use of additional antenna(s) are subject to the requirements of 15.204(c)(4).

CC: This device is certified pursuant to two different Part 15 rules sections.
