

Electronic Security Hardware

The Premier Supplier of Electromagnetic Locking Solutions

The global leader in door opening solutions

When you choose a genuine Magnalock[®], you get quality solutions for high traffic and high security applications plus MagnaCare[®] lifetime replacement, no-fault, no questions asked warranty.

DURABLE MAGNALOCKS

- Lower power usage than competitor locks. At 3 watts (less wattage than a typical nightlight), a Securitron Magnalock operates efficiently with a smaller power supply, thinner, longer wiring and smaller battery backup. Securitron Magnalocks consume less energy, generate less heat and outlast the competition.
- 100% waterproof design, shock absorbing polyurethane, stainless steel casing and plated lock face that is impervious to corrosion operate from -40F to 140F [-40C to 60C]
- Instant release circuit with no residual magnetism and no inductive kickback

INTELLIGENT MAGNALOCKS

- Onboard microprocessor and available integrated sensors including PIR REX, BondSTAT, door position switch, and door prop sensing reduce the number of devices to buy and install at the door
- Sleek, low profile and refined lines for aesthetically demanding applications
- Patent-pending template and bracket mounting system enable accurate alignment of magnet and armature plate for maximum holding force

All Securitron Magnalocks Include:

- Automatic dual voltage uses 12 or 24 volt power supply and protects Magnalock
- World-class technical support experts, ready to assist you in selecting hardware, wiring and troubleshooting your opening
- Excellent product quality – Magnalocks are manufactured in an ISO 9001 & 14001 certified factory in Phoenix, AZ
- MagnaCare[®], the best warranty in the industry – lifetime replacement, no fault, no questions asked
